

## Mathematical Questions with Their Solutions, from the Educational Times Volume 65

Filesize: 3.59 MB

### ***Reviews***

*I just began reading this pdf. It is actually written in straightforward words instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Not Avail, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1865 Excerpt: .is equivalent to the following theorem. The length ( $k$ ) of the normal to an ellipse, from the curve to the point where it meets the minor axis, is  $e$  (or  $a : c$ ) times the distance of this point from the focus. This can be readily proved from Taylor's Conies, p. 60, or Salmon's Conies, p. 164. Moreover the fixed point  $P$  is obviously one of the two points inverse to each other with respect to both circles, and may, from this property, be easily determined. See Toynsend's Modern Geometry, Art. 188, Cor. 1 and 2; Art. 155, Cor. 2--Editob. 1519 (Proposed by F. D. Thomson, M.A.)--ABC is a triangle having the three real points ( $P, Q, R$ ) of inflexion of a cubic on the sides BC, CA, AB respectively, each of which also passes through two imaginary points of inflexion. The tangents at  $Q$  and  $R$  meet in  $I$ , those at  $R$  and  $P$  in  $E$ , and those at  $P$  and  $Q$  in  $F$ . Show that  $AD, BE, CF$  meet in a point which is fixed for all the cubics having the same nine points of inflexion. I. Solution by Professor Cremona, of Bologna. The connectors  $AD, BE, CF$  are concurrent, since, by construction,  $ABC$  and  $DEF$  are coaxial triangles. Further, these connectors are the respective harmonic polars (see Salmon's Higher Plane Curves, p. 140, or Cremona's Teoria Geometrica delle Curve Piane, p. 113) of  $P, Q, R$ ,...
