

Carbon Nanotube Cotton Thread For Gas Sensing

Filesize: 2.98 MB

Reviews

These types of book is the perfect pdf available. I actually have study and that i am sure that i will planning to read through again again in the foreseeable future. Its been designed in an exceedingly basic way which is simply soon after i finished reading through this publication in which basically changed me, modify the way i believe.

To download **Carbon Nanotube Cotton Thread For Gas Sensing** PDF, you should refer to the button below and download the document or have accessibility to other information which might be have conjunction with CARBON NANOTUBE COTTON THREAD FOR GAS SENSING book.

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Smart wearable devices can be fabricated using flexible and linear cable-type materials for applications in energy, electronics, sensing and healthcare products. Such wearable devices have been prepared by incorporating conductive nanostructures, metallic nanomaterials, hybrid nanocomposites and polymer nanocomposites on the surface of flexible and permeable cotton materials (threads, fibers, yarns and fabrics). The present research work explores the feasibility of a novel sensor based on nanostructured cotton threads. These threads were functionalized using carbon nanotubes (CNTs) and PANi/Gamma-Fe₂O₃ nanostructures. These hybrid nanostructured cotton based sensing threads could be easily woven into the textile materials which will be useful as wearable gadgets for LPG detection in household kitchens, manufacturing sites and industries. Also this work will boost an essential encouragement for the development of wearable smart sensing gadgets. | Format: Paperback | Language/Sprache: english | 52 pp.
