# COORDINATION AND DECOMPOSITION OF LARGE-SCALE PLANNING AND SCHEDULING PROBLEMS WITH APPLICATION TO STEEL PRODUCTION

Shaker Verlag Dez 2013, 2013. Taschenbuch. Condition: Neu. Neuware - Modern large-scale industrial production sites consist of many production areas each being subject to a variety of technical constraints. The general objective of planning and scheduling is to ensure the on-time delivery of the end product with the lowest possible consumption of resources. In the metal industry, the melt shop and the hot rolling mill represent about 90% of the entire steel production chain energy consumption. An adequate coordination between...

## Reviews

*An exceptional pdf as well as the typeface utilized was interesting to see. I am quite late in start reading this one, but better then never. I am very happy to explain how this is actually the best pdf i actually have go through within my individual daily life and might be the greatest publication for possibly.*

-- **Freddie Zulauf**

*Completely among the finest book I have actually read through. It is probably the most remarkable book we have study. I discovered this book from my dad and i suggested this book to learn.*

-- **Georgiana Pacocha**

*This book is fantastic. This is certainly for all those who statte there had not been a really worth reading. It is extremely difficult to leave it before concluding, once you begin to read the book.*
