Sae Transactions Volume 11, PT. 1

By Society of Automotive Engineers

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1916 Excerpt: .and want to make the statement that my paper refers to the construction of engines of approximately the same displacement as the Packard engine under consideration. I have not undertaken to state how far it would pay to sub-divide a six, or what the best design is from an all-round practical point of view for a small type engine. I think it would be just as foolish to say that we should have all twelve-cylinder engines as it would be to say that we should have all four-cylinder. Each has advantages in its own particular field. I have no quarrel with any one type. I think they may all have their place. WOOD MODELS USED IN DESIGNING I have worked out what I call the wood model route. When you have a new engine under consideration it is hard to see on the drawing-board from all...

Reviews

This book is definitely worth getting. It usually will not price too much. Its been printed in an extremely simple way in fact it is only right after i finished reading this publication where basically altered me, modify the way i think.

-- **Avery Daugherty**

Thorough guideline for publication fanatics. Better then never, though i am quite late in start reading this one. I am just effortlessly could possibly get a delight of reading a created book.

-- **Terry Bailey**
