Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Special Series of Lectures on Department of Agriculture Objectives The Division of Exhibits is again a general departmental service organization the object of which is to present in exhibit form at State, interstate, National and international expositions within the United States, and, on specific authorization at expositions in foreign countries, the results of the work of the Department. We are limited by our appropriation language to exhibits at State, interstate, National and international fairs, although these exhibits are sometimes made available for other showings. In each State, as I have said before, there is a State Extension Service, located at the land grant college, with a Director of Extension in charge who is responsible for the work in his State, Head quartered at the college also is the necessary administrative and supervisory staff, and the State subject matter extension specialists. I have not yet mentioned, however, the real backbone of the Extension Service, the first line soldiers, the county agricultural and home demonstration agents who are located in the counties and who are actually in contact With the rural people. We have now, largely because of increased funds during the past two years, county agricultural agents in practically every county in the United States, With assistant county agents in some of the larger agricultural counties, and Negro agents in counties in the Southern States having a large Negro population. The number of these county agents runs somewhere around four thousand. We have about women county home demonstration agents.
